

Investment Philosophy: We invest in businesses which are scalable, generate higher returns, have technological edge, are market leaders and have strong and ethical management team with good governance. We perceive buying of equities only as a medium to buy great businesses. Investment will be long term, multi-sector and multi-cap, purely based on bottom-up approach. Investments will be based on In-house research, defining investible universe which qualify the above rigorous test.

Investment Objective: This scheme is for high-risk investors who by nature are long-term but are dynamic in their approach. They have a higher appetite for both risk and return and obsess for higher IRR on a small portion of their overall capital. This scheme gives an opportunity to otherwise conversant investors to test their hypothesis, play cycles, sectors, and macro & micro events. This scheme is recommended for the informed investors who understand the basic premise of financial markets where risk and returns move in tandem, and we assume the investor understands and is capable of choosing a point on isoquant curve (risk reward graph).

NOTE: Inception Date of Sowilo Target Return Aggressive Fund is 23rd June 2023. Performance figures are net of all fees and expenses. Sowilo Portfolio returns are composite returns of all the portfolios aligned to the investment approach as on 31st May 2026. Returns for individual client may differ due to the timing of inflows and outflows of funds and differences in the portfolio composition because of restrictions and other constraints. Past performance may or may not be sustained in future and should not be used as basis for comparison with other investments. Returns for 1 year or lesser time horizon are absolute returns, while more than 1 year are CAGR. Returns have been calculated using Time Weighted Rate of Return method (TWRR) as prescribed by the SEBI.

SOURCE: Market Cap is according to AMFI Classification which happens half yearly. Classification as on 31st December 2025. As per SEBI regulatory requirement, the benchmark for this investment approach is BSE 500 TRI.
